## Introduction

*What is the default font of Windows Phone 8.1?*

The Segoe WP is the default font for the Windows Phone 8.1 System.

*To which fonts can we change?*

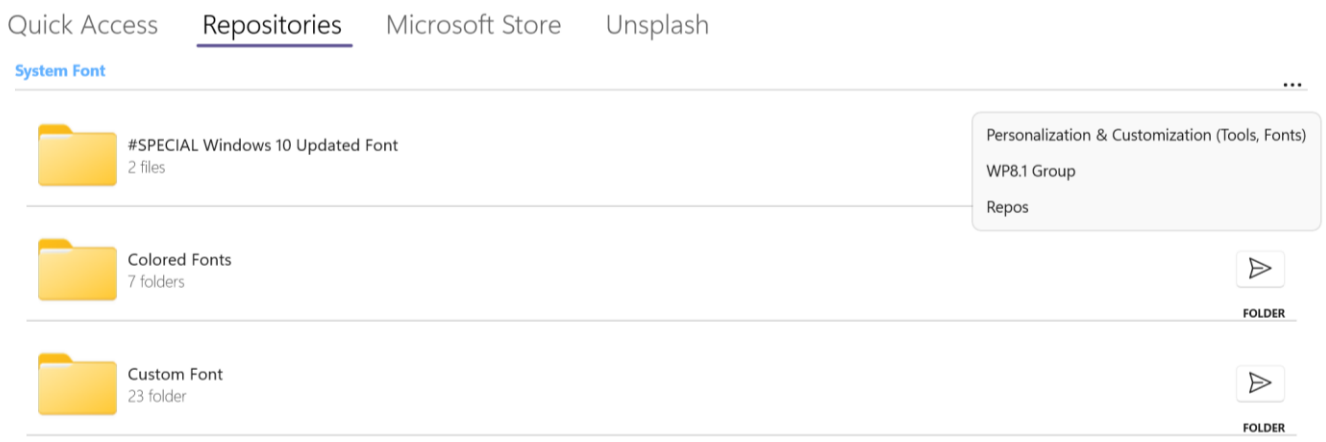
You can change your font to any one of the font files we provide in our Windows Phone 8.1 repository.

## Windows Phone 8.1 Font Files

You can get a collection of Font files for WP8.1 with Previews to download from our repository.

*(The preview pics are from W10M, but they all work in WP8.1 as well)*

W.U.T MEGA



## Preparations

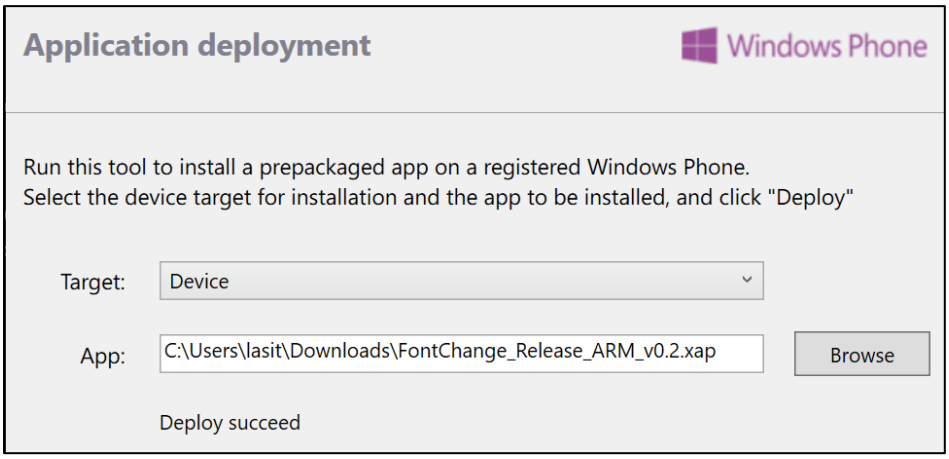
> Download **DHT Font Change**

W.U.T MEGA

## How to change System Font

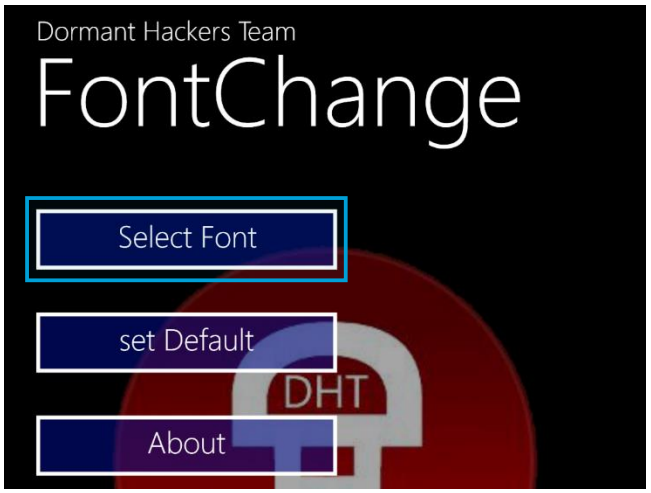
> First, deploy the **DHT Font change** app to your device.

*You can use any deployer to sideload it as long as the device is jailbroken*

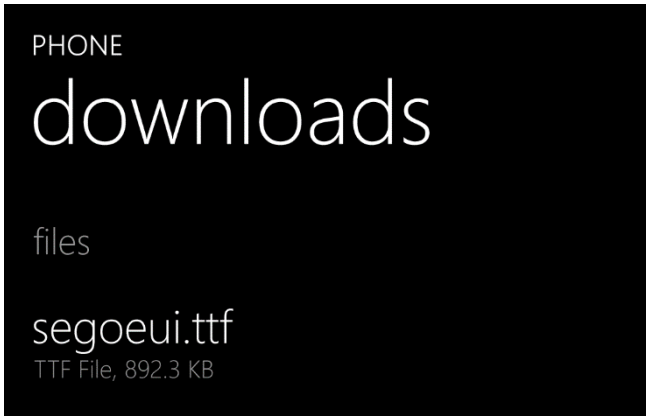


> Once installed, open the app.

> In the app, click "**Select Font**"



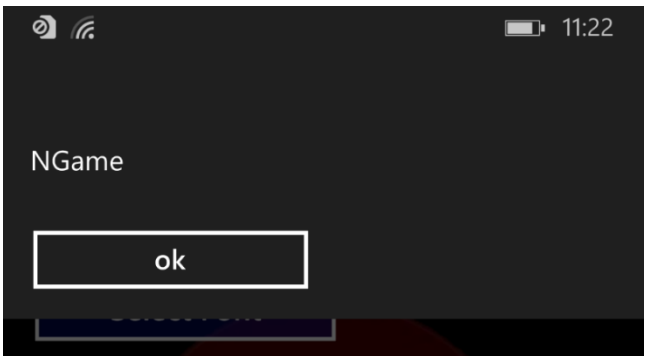
> Then select the custom font file you downloaded from our repos.



> Once you select the custom font, you will get "**NGame**" or "**NGame2**"

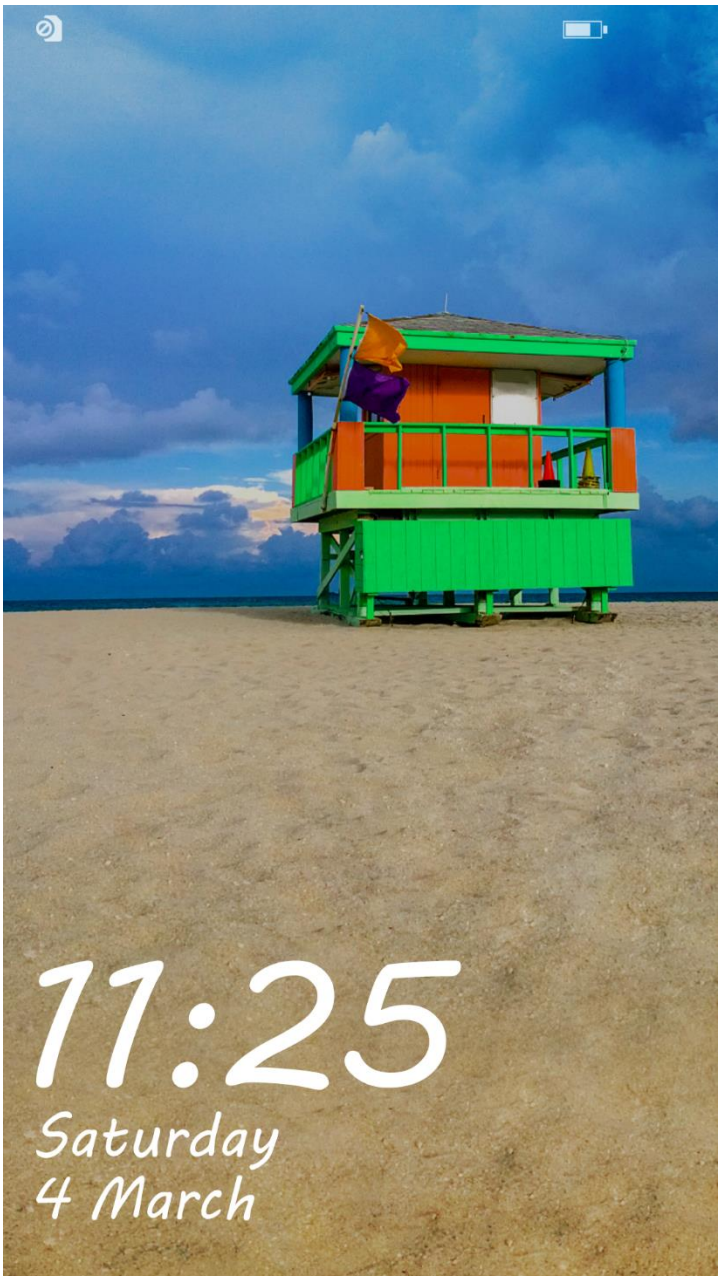
That means the process is completed.

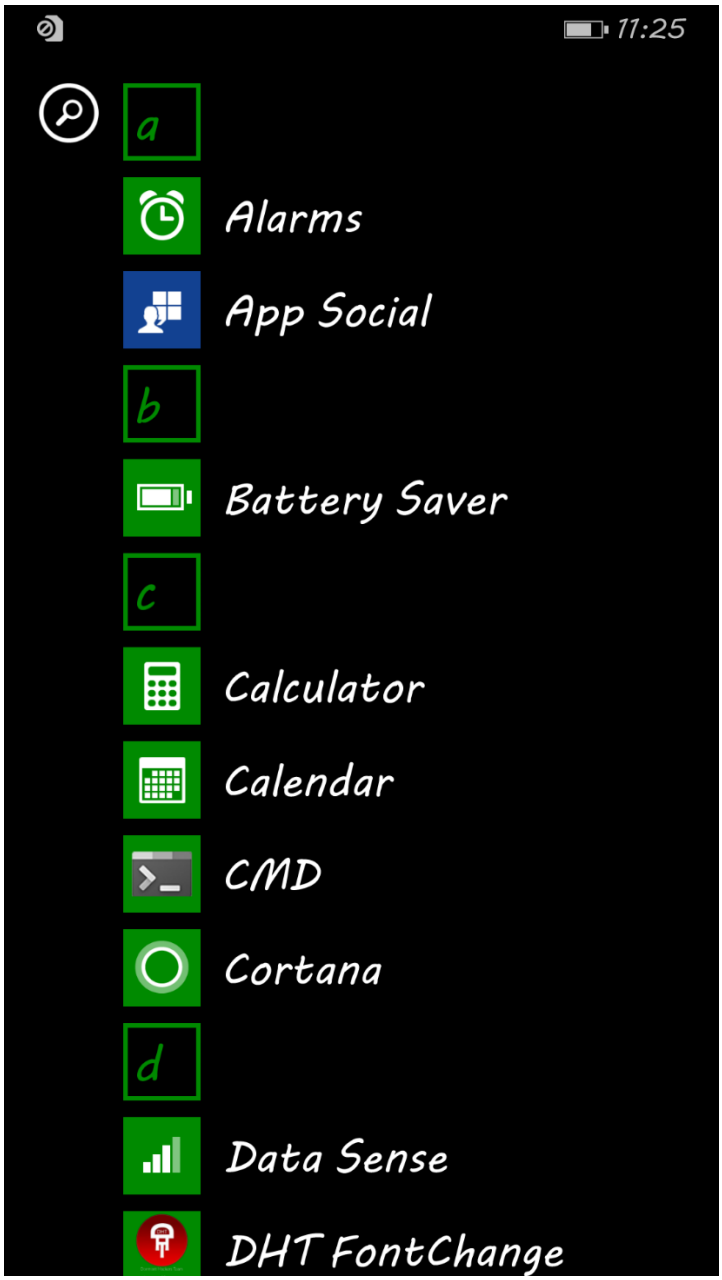
Click **OK** *(If there is a same second prompt, do the same)*



Simply restart your device for the changes to take effect.

> Once your phone boot back, you will have the chosen font applied to your device.

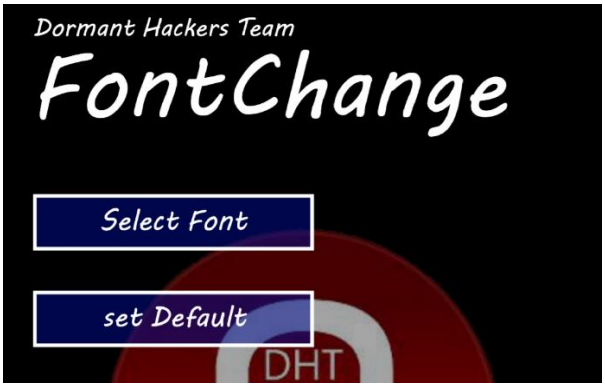




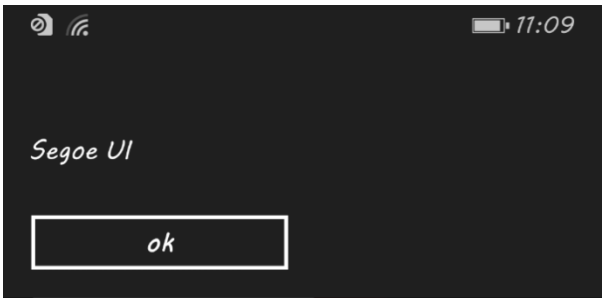
## REVERT: Restore back to Original Font

> Open **DHT Font Change**

> Click "**Set Default**"



> Then you will get a prompt saying "**Segoe UI**", click **OK** to it.



> Then restart your windows phone.

Once you boot back, the default font will be applied.
